

SIP Trunks

Business Grade IP Phone Lines and Great Value Calls that SAVE you Money

- ✓ Suitable for businesses with an IP PBX
- ✓ Cheaper calls, connection fees and line costs
- ✓ FREE calls between offices
- ✓ Excellent call quality over a Private Network, NOT the Public Internet
- ✓ Modern alternative to ISDN Channels
- ✓ Available in 2 line multiples (2,4,6,8,10 etc)
- ✓ Direct Indian Number Range in batches of 10
- ✓ Get as many SIP Trunks (lines) as your broadband connection can handle
- ✓ No long term contracts

Huge savings on call costs

With FREE calls between offices and flat rate local and national calls, staff can talk for as long as they like without you feeling the pinch.

Excellent flexibility for business cycles

Business rarely remains the same, from time to time your business may need extra resources. With SIP Trunks you can easily increase or decrease your lines as and when you need. Best of all they are simple to order and install, with more flexibility than traditional as you need services.

Combine with your current PBX or SIP Gateway

Our SIP Trunks work with a wide variety of SIP enabled PBXs and Gateways - good news if you have already invested in a system. Down the track, if you want to upgrade to a fully hosted solution we can help you with a seamless and simple upgrade.

Calls carried over dedicated ADSL/SHDSL Broadband

The IP in SIP refers to Internet Protocol, but there's IP and there's IP. Today's largest companies carry their voice calls over IP, but via a private network not the public internet. That means call quality can be guaranteed and backed up with Service Level Agreements.

Choose Your Plan

Monthly Access	Monthly DID Range	Set-Up Fee	Inter-Office Calls	Local Calls	National Calls	Calls to Mobiles	Calls to 1300 Numbers
\$9.90 per trunk	\$5 per 10 numbers	\$55 No-Port \$110 Porting	FREE	11c per call	11c per call	22c per min	33c per call

All prices quoted above Inc GST.

Why Choose Us?

We supply the best networks, backed up with our unbeatable personalised service, delivered without any contracts while supporting your local community.

One Bill

We're a full service telecommunications provider meaning we can provide all your communications on one single bill. So that's one simple payment per month and one company to deal with. Just makes life simple.

Direct Contact

When you're with us you'll have our direct contact details so if you've got a question you know who to come to. It's the kind of personal service the big telcos just can't offer. Their loss, your gain.

No Minimum Term Contracts

We back our level of service with our no minimum term contract guarantee. This gives you the flexibility to change between different plans and services at any time without any fees as well as giving you the comfort that you can switch service providers at any time without early termination fees.

A Communications Partner

We believe in being a valued partner to our clients by offering honest and straightforward advice. We don't make the sale and run, we're here to stay, and we're here to do whatever we need to keep you happy.

Supporting your Local Community

Support a local community organisation of your choice by taking advantage of our unique community program whereby we will donate 2% of your total spend to the club or organisation of your choice. We already sponsor many sporting clubs through our community program and are always looking to sponsor many more!

Things You Should Know

1. In order to access the Service, you will need a dedicated fixed line broadband Internet connection, such as ADSL 2+ you will also need an IP Phone and may need extra hardware depending on your set up e.g. router and switches. 2. We recommend that the Service be accessed with hardware supplied or approved by us, using a broadband ADSL2+ or SHDSL service supplied by us to our specifications. The Service is designed to allow users to bring their own device, but we do not offer any guarantee or assurance that all devices will be compatible and function with the Service. 3. The broadband speed required for the Service will depend largely on your network demands. Data transmission demands on your network may cause the bandwidth available for voice transmission to be limited if voice and data share the same connection. 4. Extra charges will be incurred for freight for any hardware. 5. Minimum 10 DID numbers purchased in blocks of 10. 6. Porting is charged per end user site.
